***Reissue Applications***

Claims 1-9 are rejected under 35 U.S.C. 251 as being broadened in a reissue application filed outside the two year statutory period. The application of 08/069739 was patented on September 6, 1994. The continuation application of 08/702107 went abandoned 12/31/1999. Since application 08/702107 did not mature into a patent, the earlier filed application 08/069739, which matured into a patent on 9/06/1994, is well beyond the two years as set forth in MPEP 1412.03. A claim is broader in scope than the original claims if it contains within its scope any conceivable product or process which would have infringed the original patent. A claim is broadened if it is broader in any one respect even though it may be narrower in other respects.

The reissue oath/declaration filed with this application is defective because the error which is relied upon to support the reissue application is not an error upon which a reissue can be based. See 37 CFR 1.175(a)(1) and MPEP § 1414.

The alleged error is directed to broadening the scope of the claims to a treatment modality of simply distending frontal portions of a patient's neck. The original specification includes only one modality for distending frontal portions of a patient's neck. The disclosed modality is by way of a pressure application. Since there is only one mode of treatment, applicant cannot broaden the scope of the claim to include other modes not clearly set forth in the original specification.

Art Unit: 3738

The original patent, or a statement as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.

The reissue oath/declaration filed with this application is defective because it fails to contain a statement that all errors which are being corrected in the reissue application up to the time of filing of the oath/declaration arose without any deceptive intention on the part of the applicant. See 37 CFR 1.175 and MPEP § 1414.

Claims 1-9 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.
